THE CURRENCY QUESTION. The London Chamber of Commerce has addressed the following memorial to the Right Hon. the Earl of Rosebery, K.G., First Lord of the Treasury :-

My Lord .- The East India and Chinese Trade Section of this Chamber have latterly been devoting close and special attention to the silver question in its bearings on our trade with the East, and the trade of Eastern countries generally.
The section have now made representations to the Council, and the Council (while reserving the expression of any opinion on the merits of the question), are impressed with the very strong feeling among those interested in trade with the East that the silver question is in an extremely unsatisfactory state, whilst it ap-

pears that grave injury is being inflicted upon this large and important trade by the heavy fall and the violent fluctuations in exchange. Much has, in the opinion of the section, occurred, and severe lessons have been learned, since the meeting at garrisons in Central Asia are believed to Brussels of the International Conference apply only to the Trans-Caspian district. of 1892. The section are hopeful that, as the result of further discussion. and with the aid of the light which recent events have thrown upon the subject, some plan may be devised for remedying an evil which has dislocated husiness all over the East, and which seriously threatens irre-

mediable injury to a trade which has been estimated to amount to nearly £250,000,000 sterling annually. The resolution passed at a meeting of the East India and China Trade Section was given in our last issue. Mr W. G. Gulland writes to us to-day :
